

Alki's 1:1 Device Distribution Plan

SPS is going 1:1 so ALL our students will be able to access remote learning on the same kind of device. All 3rd-5th graders will receive a laptop. All K-2 students will receive an iPad. These devices will be checked out to each student just like a library book.

------------------	---

For K-2 Distribution We will have ONLY 1 pick up method (walk up).

Walk Up Directions:

Near the southwest corner of the playground fence (see map on next page) there will be a volunteer handing out masks (if you need one), pens and forms (please bring your own hard surface to write on like a clipboard, magazine, book etc). Please join the line that will start at the opening of the fence. **Please maintain 6 feet distance (there will be blue tape on the ground) and wear a mask at all times.** As you approach the table a volunteer will take your filled-out form. Once your form is processed inside the building a volunteer will return with your device and a Device Responsibility and Care packet. Please make sure to confirm your

child's name with the volunteer to ensure the device is indeed checked out to the correct student.

If you are unable to come during any of these times OR if you do not have transportation to come pick up a device please let Mrs. Iba know via email, liba@seattleschools.org .
